Subject: Update on Oil & Gas

Hi All-

The Oil and Gas RFA has been modified to reflect one single \$2M award. Rather than pull the announcement and reissue, we are issuing a modification and extending the open period by 15 days. The revised announcement should post later today along with a special announcement of the change on the NCER website. Additionally, a notification will be sent out on our listserve.

Please let me know if you have any questions.

James E. Gentry
Acting Deputy Director, National Center for Environmental Research
